ANNUAIRE DU COLLEGE DE FRANCE (7)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 42 pages. OCLC Number: (OCoLC)163576742 Subject: Military base closures -- United States. Excerpt: . . . projected decreases in the inventory of aircraft components and replacement parts, and annual recurring savings from reduced depot labor and overhead charges and reductions in military personnel. While savings from lower inventory levels may be possible, our analysis of a judgmental sample of items targeted for inventory reduction concluded that the majority of these savings would not occur during the 6-year 10 implementation period of this BRAC recommendation. Further, we believe the Navys estimated annual recurring savings remain overstated because they included savings from eliminating military personnel that are not expected to result in a reduction to its overall service force structure and included onetime savings erroneously reported as recurring savings. The Navys business plan shows onetime costs increased by 96 percent Onetime Costs Increased (from 34 million to 65 million) as compared to the BRAC Commissions estimates, which was primarily due to increased costs associated with relocating depot employees to the intermediate level, other miscellaneous 11 program management actions, and inflation. For example, Navy officials stated that they need to add more equipment or specialized workbenches to support depot artisans relocated to the intermediate departments. The program management costs are primarily for information technology upgrades. For example, Navy officials stated the need for an interim logistics tracking and accounting mechanism, using its current Naval Aviation Logistics Command Management Information System to track depot maintenance repairs at the intermediate departments. While onetime costs have nearly doubled, they have limited effect on the long-term recurring savings expected from establishing fleet readiness centers once those savings offset implementation costs. While the Navy has reduced the projected onetime savings from lowe.
